

DEPARTMENT OF MOLECULAR MEDICINE SEMINARS SPRING 2001

Seminars will be held at 4:00 pm on Mondays in Lecture Hall III, Veterinary Research Tower, unless otherwise stated. Please contact the host if you wish to meet with a speaker.

February 8th (Thursday)

REINHARD JAHN, Department of Neurobiology, Max-Planck-Institute for Biophysical Chemistry, Göttingen
"Control of Exocytosis in Neurons"
(host Rick Cerione/Geoffrey Sharp)

April 2nd

BENJAMIN S. GLICK, Molecular Biosciences, University of Chicago
"Where Do Little Golgi Stacks Come From?"
(host, Ruth Collins)

April 9th

WILLIAM E. BALCH, Department of Cell Biology, The Scripps Research Institute
"Molecular Basis for Ras Superfamily GTPase Regulation of Secretion"
(host, Ruth Collins)

April 16th

GARY KORETZSKY, Department of Pathology and Laboratory Medicine, University of Pennsylvania School of Medicine
"The Role of Adapter Proteins in T Cell and Platelet Function"
(host, Barbara Baird)

April 30th

YOJI SHIMIZU, Department of Laboratory Medicine and Pathology, Univ of Minnesota Medical School
"T Cell Signaling and Integrin Function"
(host, Jun-Lin Guan)

May 3rd (3PM, Thursday)

DOUGLAS R. GREEN, Division of Cellular Immunology, La Jolla Institute for Allergy and Immunology
"Apoptosis and the Cellular Response to Stress"
(hosted by the department graduate students, contact Shine Tu)

May 7th

THOMAS F. J. MARTIN, Department of Biochemistry, University of Wisconsin - Madison
"Molecular Mechanisms of Regulated Membrane Fusion and Neurotransmitter Secretion"
(host, Manfred Lindau)

May 14th

JOHN HEPLER, Department of Pharmacology, Emory University School of Medicine
"Cellular Roles and Regulation of RGS Proteins in G Protein Signaling"
(host, H. Alex Brown)

May 21st

GERRY OXFORD, Department of Cell and Molecular Physiology, University of North Carolina-Chapel Hill
"No Gain, No Pain: Regulation of Vanilloid Receptor Sensitivity by Phosphorylation"
(host, Linda Nowak)
