Quotables:

By all these lovely tokens
September days are here,
With summer’s best of weather
And autumn’s best of cheer.

Congratulations!

The Duhamel Lab together with Dr. Keith Mansfield (Adjunct Associate Professor) of the New England National Primate Research Center at Harvard Medical School received a National Institute of Health, National Institute of Allergy and Infectious Disease R21 grant to assess the contribution of a nuclease produced by Campylobacter jejuni in resistance against extracellular killing by neutrophil extracellular trap and role in animal models of acute infection.
Please welcome Elena Cestero who joined the Department of Biomedical Sciences on August 2nd, 2010 as an Administrative Assistant. Elena comes to us after working ~3 years in the College’s Human Resource Office and brings a multitude of talent in her new role splitting her time between the Section of Anatomic Pathology Service Office and the VRT. Elena completed her Bachelor’s degree from Wellesley College in June, 2007. She will be assisting with surgical/necropsy reports, grant preparations, searches and “floating” throughout the department assisting with various administrative tasks. Please join us in welcoming Elena!
