Faculty position in Small Animal Orthopedic Surgery

The Department of Clinical Sciences of the College of Veterinary Medicine at Cornell University invites applications for a tenure track faculty position in Small Animal Orthopedic Surgery. Candidates must have a DVM or equivalent degree and should be board certified or board qualified by the American College of Veterinary Surgeons.

The new surgeon would join an active orthopedics practice that is currently expanding services offered to clients of the Cornell University Hospital for Animals. Facilities and equipment in the Hospital include a 16-slice CT, 1.5T MRI, and portable C-arm fluoroscopy as well as state of the art orthopedic equipment, a customized dual Kistler force plate system, and total hip, elbow, and knee replacement systems. The successful candidate will be expected to oversee and teach surgery residents, interns, licensed veterinary technicians, and veterinary students. Independent research is expected with ample opportunity for collaboration within the College and across Cornell, including the Engineering and Medical Colleges. Cornell University is a major research institution and ranks highly for the quality of services provided to its staff. Ithaca lies at the foot of the Finger Lakes in beautiful upstate New York and consistently ranks in the top tier of USA small cities for the quality of its living environment.

Title and salary will be commensurate with academic credentials and experience. Interested individuals should send a letter of application including clinical service, research and teaching goals, curriculum vitae, and names and addresses of three referees to: Office of the Chair, Margaret C. McEntee, Department of Clinical Sciences, Box 31, College of Veterinary Medicine, Cornell University, Ithaca, NY 14853-6401. For further information, contact Dr. Rory Todhunter (rjt2@cornell.edu or 607 253 3041). Review of applications will begin October 2011, and continue until an acceptable candidate is selected.

Cornell University is an equal-opportunity, affirmative-action employer committed to employing a highly qualified, diverse faculty. Women and under-represented minorities are encouraged to apply. Cornell and the College of Veterinary Medicine are committed to supporting dual career couples.
