Faculty Position in Anesthesiology

The Department of Clinical Sciences, College of Veterinary Medicine, Cornell University invites applications for a tenure track position in the Section of Anesthesiology. Candidates must have a DVM or equivalent degree, and should be board certified by the American College of Veterinary Anesthesiologists or the European College of Veterinary Anaesthesia and Analgesia. The candidate must have a demonstrated ability in at least one area of veterinary research and will be expected to engage in independent and collaborative, translational research. An interest in pain mechanisms or management is desirable.

The section of anesthesia at Cornell has four faculty, four residents and eight veterinary technicians who work in a modern, well-equipped teaching hospital with a diverse large and small animal caseload. Cornell University is a world-class research institution; hence there are extensive opportunities on campus for collaboration with basic scientists of all disciplines. Weill Cornell Medical College in New York City is part of Cornell University and also provides a large pool of potential collaborators.

Responsibilities will be determined in accordance with the service needs, academic priorities, and the candidate’s areas of research expertise within the specialty of anesthesia. Effort will be distributed among clinical teaching and service in the Cornell University Hospital for Animals, research, and didactic and laboratory instruction of veterinary students and residents.

Salary and rank will be commensurate with academic credentials and experience.

Cornell University is an equal opportunity, affirmative-action employer committed to employing a highly qualified, diverse faculty. Women and under-represented minorities are encouraged to apply. Cornell seeks to meet the needs of dual career couples and has a Dual Career program.

Applications and questions should be directed to Dr. Thomas J. Divers, Chair of the Search Committee (TJD8@cornell.edu). Proposed deadline for application is July 31, 2011. Applications can be emailed or a hard copy can be mailed to Dr. Thomas J. Divers, Department of Clinical Sciences, Box 25, College of Veterinary Medicine, Cornell University, Ithaca, New York 14853.
