ADMISSIONS UPDATE
~GRE's Not Required~

GRE's are <u>no longer required</u> to apply to Cornell University's *Doctor of Veterinary Medicine* degree program starting this application cycle.

EARLY ACCEPTANCE PROGRAM
for College Sophomores

Are you a college sophomore with an interest in doing something different with your junior year? If yes, you might consider our **Early Acceptance Program.**

This program was created to provide students who have excelled academically to work on a special project, participate in an internship, participate in a research project, or take courses that they might not ordinarily do because they feel the need to stay exclusively on the pre-vet track (and these are just a few examples). All prerequisite courses will need to be accomplished by the end of the junior year prior to enrolling in the DVM program. Visit our **web site** for details about the program, additional requirements, and the Early Acceptance Application.

Feel welcome to **email us** with questions or set up a phone or virtual **appointment** to talk about your preparation and written plan. **Deadline to Apply is June 1st.**

VIRTUAL ADMISSIONS
ROUND TABLES

Each of these programs offer an opportunity to learn more about Cornell's DVM degree program, how to prepare for a future application, how to apply and have all your questions answered via Zoom small groups. Find the group you most relate to and register below. Please include the date and time you are interested in attending!
