

Faculty Position in Medical Oncology

The Department of Clinical Sciences, College of Veterinary Medicine, Cornell University invites applications for a tenure-track position in the Section of Oncology. Candidates must have a DVM or equivalent degree and **must** be board-certified by the American College of Veterinary Internal Medicine (Oncology) by the negotiated position start date. Preference will be given to applicants with postgraduate research training and demonstrated ability in research related to the specialty. Candidates who have recently completed an approved residency or will complete their residency within a year will also be considered if prior research experience in the discipline is demonstrated.

The successful candidate will join two medical oncologists, two radiation oncologists (both boarded in both Radiation Oncology and Medical Oncology), one medical physicist, three residents, one specialty intern, four licensed veterinary technicians, and two radiation therapy technicians comprising the Section of Oncology (medical and radiation oncology operate as one section). The Section provides care for patients in the Cornell University Hospital for Animals, a tertiary care service and teaching facility with a diverse caseload and an established referral base. Clinical service and teaching responsibilities are distributed among the faculty members and residents. Faculty participate in training of residents, interns, and professional (DVM) students, and have the opportunity to train undergraduate and graduate students. Cornell is a world-class research institution with extensive research facilities and opportunities for collaboration with scientists of all disciplines at the Ithaca campus, Weill Medical College and Cornell Tech campuses in New York City, and regional cancer centers. **Individual** research space is available. The successful candidate will develop or continue an independent funded research program in clinical, basic, and/or translational research in addition to conducting collaborative research.

The candidate will be expected to provide excellent clinical care and effective client communication, as well as deliver didactic and laboratory instruction to veterinary students, and participate in active continuing education for the veterinary community.

The candidate should exhibit outstanding interpersonal skills and a cooperative work ethic that will interface well with all Sections of the College. Distribution of effort in the Section and Department will be determined in accordance with the service needs, academic priorities, and the candidate's expertise and academic goals. Commitment percentages to clinical teaching and service in the Cornell University Hospital for Animals, lecture and laboratory instruction of veterinary students and house officers, and independent and collaborative research are negotiable. Clinical duties require flexible working hours that may include daytime, evening, and occasional weekend responsibilities.

Salary, rank, and title will be commensurate based on academic credentials and experience with a posted range of \$155,000-195,000.

Cornell University is located in Ithaca on the shores of Cayuga Lake in the beautiful Finger Lakes region of New York. Ithaca is a vibrant city with **art** museums, theaters, and a diverse selection of restaurants. It is within driving distance of several large metropolitan centers, award-winning wineries, and downhill skiing areas. Ithaca is a nature-lovers paradise with ample opportunities for outdoor activities. Easy campus-to-campus bus transportation allows one to explore or work in

NYC while enjoying the “Ithaca is Gorges” lifestyle.

The University seeks to meet the needs of dual career couples and has a Dual Career program to assist with dual career searches.

For more information, go to: <https://www.vet.cornell.edu/departments-centers-and-institutes/clinical-sciences> or contact Dr. Patrick Carney, Chair of the Search Committee at pcc25@cornell.edu.

Electronic application submission is through Academic Jobs Online:
<https://academicjobsonline.org/30232>

To apply, submit a cover letter including a statement of career goals, curriculum vitae, statement of research interests and plans, statement of teaching interests and plans, and the names of 3 individuals who can provide references. 

Review of applications will begin on August 22nd, 2025, and will continue until the position is filled.
