Faculty Position in Dermatology

The Department of Clinical Sciences in the College of Veterinary Medicine at Cornell University invites applications for a tenure track or clinical track faculty position in the Section of Dermatology. This will result in a total of two full-time and one part-time faculty members in the section with the goals of supporting robust pre-clinical and clinical research programs, providing excellent clinical/diagnostic services in the Hospital and College, and maintaining a strong teaching and outreach program.

Cornell University College of Veterinary Medicine is a fulfilling place to work with ample opportunities for a robust and rewarding career for a clinical and research-oriented faculty member. The teaching hospital provides a diverse and challenging small and large animal caseload, and is well-equipped and supported for clinical research. Extensive opportunities for independent and collaborative research exist at the Veterinary College and throughout the University, including Weill Medical College and technology campuses in New York City. Candidates with a special interest in equine dermatology can find unique opportunities for developing their clinical and research interests at our satellite equine referral hospital on the backstretch of the Belmont racetrack. Candidates with a small animal focus can develop consultation arrangements and collaborative research opportunities with the college-owned and affiliated small animal specialty practice in Stamford, Connecticut.

Candidates must have a degree in Veterinary Medicine. Board certification in the American College of Veterinary Dermatology or the European College of Veterinary Dermatology is preferred, but candidates who have completed or who will be completing an approved residency within a year will be considered, if prior research experience is demonstrated. An advanced degree (PhD) or other research training is desirable but not required for the tenure-track faculty position.

Clinical teaching and service in the Cornell University Hospital for Animals, lecture and laboratory instruction of veterinary students and house officers, and the establishment of an independent research program (for a tenure track position) are expected. Distribution of effort in the Section and Department will be determined in accordance with the position (clinical track or tenure track), service needs, academic priorities, and the candidate's expertise and academic goals in dermatology.

Clinical duties include the examination of all animals with skin disease presented to the CUHA. The dermatology clinicians have primary case responsibility for dogs and cats examined in the dermatology clinic. The dermatology service also collaborates extensively on cases under the management of other services and can include dogs, cats, exotic and zoo species, horses, wildlife, and the spectrum of farm animals.

Beyond clinical duties, the on-duty faculty member is responsible for phone or internet consultations with regional veterinarians; leads case and didactic rounds with the students, interns and residents

Cornell University College of Veterinary Medicine

assigned to the service; and has an active role in the weekly dermatohistopathology rounds of the pathology service. The candidate should have strong interpersonal skills and the ability to work cooperatively with all of the sections in the Hospital.

Salary, rank, and title will be commensurate with academic credentials and experience.

Easy campus-to-campus bus transportation allows one to explore or work in NYC while enjoying the “Ithaca is Gorges” lifestyle. Cornell is located in Ithaca on the shores of Cayuga Lake in the beautiful Finger Lakes region of New York. Ithaca is a vibrant city with art museums, theaters, and a diverse selection of restaurants. It is within driving distance of several large metropolitan centers, award-winning wineries, and downhill skiing areas. Ithaca is a nature-lover’s paradise with abundant opportunities for outdoor activities.

Diversity and Inclusion are a part of Cornell University’s heritage. We are an employer and educator recognized for valuing AA/EEO, Protected Veterans, and Individuals with Disabilities. The University seeks to meet the needs of dual career couples and has a Dual Career program to assist with dual career searches.

For more information, go to: <http://www.vet.cornell.edu/clinsci/> or contact Dr. Mitzi Clark, Chair of the Search Committee at mdc252@cornell.edu.

Electronic application submission is through Academic Jobs Online:

<https://academicjobsonline.org/ajo/jobs/21978>

The required sections of the application include a cover letter describing your clinical interests, teaching philosophy, career goals, inclusion and diversity statement, research interests, curriculum vitae, and email addresses for letter requests of 3 referees who will be invited to upload their letters at this site. Please ensure you select to send an email reminder to the reference writer(s) indicated in your submission. If you have concerns with submitting your references online, please contact the Chair of the Search Committee.

Review of applications will begin on **July 15, 2022** and continue until the position is filled.
