Summer 2018 Havemeyer Foundation Equine Research Fellowships

Day 34 Horse Conceptus

The Dorothy Russell Havemeyer Foundation Fellowship Program at Cornell University provides support for short-term educational experiences in academic equine medicine for veterinary students. Fellowships are offered in the Equine Genetics Center at the Baker Institute (<http://www.vet.cornell.edu/baker/>), a division of the College of Veterinary Medicine at Cornell. The purpose of the Fellowships is to enable students with an interest in research careers to participate actively in cutting-edge investigations in equine medicine.

Program: Fellows undertake mentored research projects and also assist with routine herd health treatments, clinical reproduction, or field studies. Current research includes the Horse Genome Project, investigations of equine pregnancy immunology, studies of immunity to equine herpes virus, and equine stem cell biology.

Fellowship Conditions and Eligibility: Students in Colleges of Veterinary Medicine in North America and abroad are eligible to apply. The Fellowship term is 10 weeks, with a flexible start date for any consecutive 10 week period between May and September. Stipend support is \$5,000. Fellowship participants may be eligible for academic credit through their home institution. Housing is not provided, but readily available near campus.

Application Procedure: Deadline for applications is **Monday, January 15, 2018**, with notification on or before February 2, 2018.

Please send the following materials to Ms. Sue Williams (smw23@cornell.edu):

- A letter describing your interests and experiences (limit 2 pages).
- A curriculum vitae (CV) with grade point average (GPA) and results of standardized tests (e.g., US Graduate Record Exam or foreign equivalent).
- Name, address, e-mail, fax, and telephone number for two professional references who would be willing to write a letter of recommendation upon request.

For more information, please contact: Ms. Sue Williams (smw23@cornell.edu) Baker Institute for Animal Health, College of Veterinary Medicine, Cornell University, Ithaca, New York 14853. Tel: 607-256-5601.
