Diagnostic FISH Submission Form

FISH testing and analysis is performed by the Simpson Lab group of Cornell University’s Veterinary Clinical Science Department.

Ship Slides, Blocks or Tissue to: Ph: 607-253-3900
US Postal Service FedEx/UPS
P.O. Box 5786 240 Farri
er Road
Ithaca, NY 14852-5786 Ithaca, NY 14853

FISH submission forms and corresponding histology reports may be faxed to: 607-253-3959.

Test Information: Diagnostic FISH testing is performed by an independent lab group and not at the Cornell AHDC. Results are examined and interpreted by Dr. Kenneth Simpson and turnaround time is dependent on his availability. While typical turnaround time is 5-10 business days, it can sometimes take as long as 15 business days if Dr. Simpson is out of the country or otherwise unavailable. We encourage clients to call us at the lab if they are concerned about turnaround time (607.253.3567).

Cost of Testing: The cost of testing is $190.00 for the first fixed tissue and $50 for each additional tissue submitted at the same time. There is also a $50 fee for each additional probe requested. Please submit 5 unstained sections/ per tissue on charged slides. If formalin fixed tissue or paraffin embedded blocks are submitted, an additional $30 fee per tissue block will be assessed and an additional 5-10 business days will be added to the turn-around time.

Contact Information: We encourage clients to contact us with any questions regarding this test. The lab number is 607.253.3567.

Animal Name/ID: Case/Accession#: 
Age: ______ Sex: ______ Breed: ______
Additional Info: (optional)

Veterinarian/Clinic Name: AHDC Acct No: (If established)
Mailing Address: EMAIL (REQUIRED):
(Required format not suitable for faxing; electronic images will be provided only via email)

Tissue(s) Submitted: Histology Report Included? (Y/N): 
Slide(s) Submitted: 
Brief Clinical History: 

Diagnosis/Treatment: 

First Tissue: $190.00 (RFISH)
Additional: $50/per tissue or probe (RFISHAS) 
Slide Prep: $30/tissue paraffin block (SPFISH) 
Total:
